

CLICK

(Complete Learning In Computer Knowledge)

VRT

(Voice Recognition Technology)

Course Overview:

The CLICK VRT course is specifically designed for individuals who are unable to use the computer keyboard.

What You Will Learn:

The CLICK VRT course is a Speech Recognition program used for controlling computers using voice commands. With Speech Recognition you can say commands that the computer will respond to and dictate text to the computer, which eliminates the requirement of typing the words in any text editor or word processing software.

Prerequisites:

There are no prerequisites for this course

Outcome:

Completion of the CLICK VRT course provides students with the confidence to use a computer without the need for keyboard typing. Due to the nature of the in-class learning experience, the student is also being prepared for a corporate career by participating in a business environment over the duration of the course.

Follow-Up Courses:

CLICK Microsoft Office 2016 Level 1

Duration:

5 Days (9:00 AM – 5:00 PM)

Course Details:

Click VRT (Course Code: 8708)

- \$1500 / student
- Number of Students = 1
